

4004

ANNUAL REPORT

OF

Name: GTE NORTH INC - ILLINOIS OPERATIONS

Principal Office: 100 COMMUNICATIONS DR
P.O. BOX 49
SUN PRAIRIE, WI 53590-0049

For the Year Ended: DECEMBER 31, 1998

TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records in conformity with the Uniform System of Accounts prescribed by the Public Service Commission of Wisconsin in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
2. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used, however please show the exact name of the respondent in full on the "Identification and Ownership" page.
3. Wherever information is requested in a "note", please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
4. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. Do not use parentheses for numeric values. The program will convert the minus sign to parentheses when a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
5. Please report all dollar amounts to the nearest whole dollar.
6. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
7. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, that previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
8. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the notes to the income statement or the balance sheet, which describes the nature and extent of work performed.
9. Please print a hard copy of the annual report on 20 pound or heavier paper, sign it and compare with the electronic copy before officially filing it with the Public Service Commission of Wisconsin.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	<p>Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:</p> <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	<p>A central office switch which has no remote switching units (RSUs) subtending it.</p>
Trunk	<p>A communications path connecting two switching systems in the establishment of an end-to-end connection.</p>
Wide Area Telephone Service (WATS)	<p>Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.</p>
Wire Center	<p>The location of one or more local switching systems. A point at which customers' loops converge.</p>

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

-
1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

 2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

 3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

Cash and cash equivalents at end of year (Accts. 1130-1160 for Class A; 1120 for Class B)		

IMPORTANT CHANGES DURING THE YEAR

-
1. Give the name and address of all companies which during the year came under the direct control of the respondent otherwise than through title to securities, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

 2. Give the name and address of all companies which during the year came under the indirect control of the respondent through non-reporting intermediaries, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, the name and address of the intermediary through which the indirect control exists, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

 3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, and other conditions.

 4. List extension of system (other than additions supplementing existing facilities of the respondent) whether by purchase, construction, donation, or otherwise, such as a substantially complete telephone system, exchange or toll line. Give the location, new territory covered, and dates of beginning operation, and in case of purchase give also the name and address of the company from which purchased, date of acquisition, the consideration given, and reference to Commission authorization.

 5. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates.

 6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue.

 7. Changes in articles of incorporation or amendments to charter.

 8. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Name of Affiliate (a)	Abbreviations (b)
----------------------------------	------------------------------

NONE

1

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

AFFILIATED ASSETS AND LIABILITIES

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1120, Cash and Equivalents; 1160, Temporary Investments; 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1210, Interest and Dividends Receivable; 1401, Investment in Affiliated Companies; 4010, Accounts Payable; and 4260, Advances from Affiliated Companies. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "other" for a particular account. Affiliated amounts recorded in accounts 1200, Notes Receivable, 1408, Sinking Funds, and 4020, Notes Payable, should not be reported in this schedule, but rather in the respective schedules contained elsewhere in this report.

TELECOMMUNICATIONS PLANT IN SERVICE CLASS A & B (SUB-CLASS ACCOUNTS)

Report telecommunications plant data for each subaccount where primary plant accounts have subclassifications. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone plant at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

LONG-TERM DEBT

Report data requested and show total for each long-term debt account at end of year. Information concerning the following debt issues may be reported on individual lines in aggregate: REA/RTB 2%, REA/RTB 5%, & REA/RTB 7%. In addition, REA/RTB and FFB debt, respectively, within a range of 200 basis points may also be reported in aggregate on individual lines. If reported in aggregate, a range of dates may be reported in columns (b) and (c) as well as a range of interest rates in column (d) and a composite interest rate in column (e). If aggregation is not utilized, column (e) should contain the same interest rate as reported in column (d). For account 4050 report only the amount of debt anticipated to be repaid in one year or less.

GTE north Inc. - Illinois Operations
600 Hidden Ridge
Irving, TX 75038-3897

Re: 1998 Analytical Review DWCCA-1340-ELE

Dear Ms. Heuring:

The Public Service Commission (PSC) has completed an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our reviews will supply information that will enable us to better provide guidance to utilities regarding proper utility accounting and the preparation of future annual reports.

You did a nice job completing your annual report, printing copies, and completing your confidentiality request forms. We appreciate receiving annual report filings of this quality.

If you have any questions, please feel free to contact me at (608) 266-3768. You may consider your 1998 analytical review closed.

Sincerely,

Elaine L. Engelke
Financial Specialist
Division of Water, Compliance, and Consumer Affairs

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

Calculation of Assessable Revenues for Remainder, DOJ, and Tele. Relay Assessment Purposes Footnote. Page 43

The purpose of the following computations is to derive Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment for Contel, Il.- Wisconsin from total Contel - Illinois financial data.

Computation of the Contel, Il. - Wisconsin Assessable Revenues:

Gross Operating Revenues	\$127,002,039
Plus: Collection of Amounts Previously Written off	1,123,076
Less: Uncollectibles Written off during the year	(5,202,395)
Plus: Total Other Operating Income and (Expense) (7100)	576,076
Less: Nonregulated Operating Revenue	(3,958,086)
Plus: Nonregulated Uncollectible Revenue	83,226
Plus: 97 Nonregulated Uncollectible Revenue	69,920

Total Contel - Illinois Assessable Revenue (a)	\$119,693,856
Multiplied by Contel, Il. - Wisconsin Access Line Ratio	0.004023805
Contel, Il.- Wisconsin Assessable Revenue (b)	\$481,625
Out-of-State Operating Revenues (a-b)	\$119,212,231

Computation of the Contel, Il.- Wisconsin Access Lines Ratio:

Contel, Il.- Wisconsin Access Lines Used (page 50)	798
Less: Company Used Lines (page 50)	(11)
Customer Used Lines (page 50)	787
Divided by total Contel - Illinois Access Lines excluding Company Used Lines	195,586
Contel, Il. - Wisconsin Access Lines Ratio	0.004023805

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES**Calculation of Assessable Revenues for Universal Service Fund Assessment Purposes
Footnote. Page 43**

The purpose of the following computations is to derive Assessable Revenues for Universal Service Fund Assessment for Contel, Il. - Wisconsin from total Contel - Illinois financial data.

Computation of the Contel, Il. - Wisconsin Assessable Revenues:

Total Basic Local Service Revenue (5000)	\$55,727,904
Plus: Total Intrastate Access Revenues (5084)	15,535,177
Plus: Total Long Distance Network Services Revenue	7,587,346
Total Contel - Illinois Assessable Revenue (a)	78,850,427
Multiplied by Contel, Il. - Wisconsin Access Lines Ratio	0.004023805
Contel, Il. - Wisconsin Assessable Revenue (b)	\$317,729
Out-of-State Operating Revenues (a-b)	\$78,533,148

Computation of the Contel, Il. - Wisconsin Access Lines Ratio:

Contel, Il. - Wisconsin Access Lines Used (page 50)	798
Less: Company Used Lines (page 50)	(11)
Customer Used Lines (page 50)	787
Divided by total Contel - Illinois Access Lines excluding Company Used Lines	195,586
Contel, Il. - Wisconsin Access Lines Ratio	0.004023805

Access Usage Footnote. Page 48

Unable to separate CTIL-WI exchange data from the Contel-Illinois exchanges, because all access usage is recorded and billed to Contel-Illinois.

Schedule Line Footnotes

- A)** The amount of 1 reported on page 53 for Exchange Square Miles for each exchange was input in order to perform a file save command.
- B)** All exchanges reported null values for Voice grade interLATA channel terminations. All exchanges reported null values for 56 kbps, 64 kbps, 1.54 Mbps and 45Mbps etc. circuit types for both intraLATA and interLATA channel terminations. This is due to the fact that the exchanges do not have these types of circuits in use.
- C)** The data in this Revenues - Class A&B schedule has been input solely to populate the two calculations of assessable revenue schedules on page 43 of the annual report. This data reflects the total Contel, Illinois study area.
- D)** The data in the Other Income Accounts schedule has been input solely to populate the Calculation of Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment Purposes schedule on page 43 of the annual report. This data reflects the total Contel, Illinois study area.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

E) The data in this Accounts Receivable Net Write Offs - Telecommunications schedule has been input solely to populate the calculation of Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment Purposes schedule on page 43 of the annual report. This data reflects the total Contel, Illinois study area.

F) Sheath miles of plant - fiber optics does not exist.
Strand miles of plant - fiber optics does not exist.
Route miles of plant - microwave does not exist.

Due to the Illinois operations consisting of only 3 exchanges, the reporting for the Illinois operations is very limited. Fields such as the above may not be applicable to the 3 exchanges.

G) The following is an explanation for Total Local calls multiplied by 1,000 and divided by the average Total Business & Residential lines ratio, falling outside the prescribed parameters:

It appears that the local holding time is not accurately representing calling patterns since the advent of the Internet. The activity of Internet Service Providers (ISPs) providing local dial up access to the Internet has caused industry concern over the required resource demands on the local telephone network. In some cases, ISPs have advertised a mass event, such as "a chat with a celebrity", causing a mass calling for the local telephone network. Additionally, these ISPs typically provide service at a flat monthly rate for unlimited access. All of these factors are potentially contributing to increased local holding time.

H) The amount reported for Out-of-State Operating Revenues represents the difference between the Total Contel- Illinois Assessable Revenue and the Contel, Il.- Wisconsin Assessable Revenue.
Refer to the Schedule Footnote (page 43) for the Calculation of Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment Purposes schedule.

I) The amount reported for Out-of-State Operating Revenues represents the difference between the Total Contel - Illinois Assessable Revenue and the Contel, Il.-Wisconsin Assessable Revenue.
Refer to the Schedule Footnote (page 43) for the Calculation of Assessable Revenues for Universal Service Fund Assessment Purposes schedule.

J) Per request of PSC Staff, the amount in line 8 of the Calculation of Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment Purposes reflects the amount of nonregulated net writeoff. This adjustment is to properly calculate assessable revenue for 1997.

K) The Access Usage data (page 48) is not available for these three exchanges.
